ABOUT US

Australasia Fire & Emergency Response College is a Registered Training Organisation (RTO No 45251) with our head office located on the Sunshine Coast in Queensland. We offer a core set of training and assessment courses in fire and rescue, emergency services, mining emergency response, fire safety and emergency management. We aim to provide our clients with the knowledge and practical hands-on experience to operate confidently and competently in a range of emergency situations.

We continuously consult with industries to ensure our courses are current and meet industry requirements. Our courses are delivered by highly experienced trainers and assessors with backgrounds in the following fields: Firefighting, Paramedicine and Medical Doctors; ensuring your training course is relevant and accurate to industry requirements. We provide training to a range of small to large businesses, construction sites, oil and gas, mining and resources industries. We can provide emergency response training at your site or at one of our college facilities across Australia. Our employees are trained to nationally recognised standards.
